9 Nitro Outdoor
16 Electric Indoor and the start of the Winter
Racing Season

All gas races are rain or shine events. If the track cannot be run on outdoors we will race on the indoor track. We will post on project rc by 11:00 am on Sat morning if it looks like the outdoor track will not be able to be raced on. That way if people are driving in they will know if we already have to race indoors.

Gas races will be 3 heats and 1 main except the race on July 1. This Friday night race will be 2 heats and 1 main. All 1/8th classes buggy and truggy will be 7 min qualifiers the rest will be 5 min. 1/8th mains will be 20 min all others will be 10 min.
